

What are Whole Foods Market Team Leaders Saying About AiroCide PPT?

"Since AiroCide PPT was installed in our floral coolers shrink has been reduced drastically. The appearance of the product and shelf life is so much better!"

Chris Snell Store Manager Whole Foods Market – White Plains, NY

"The produce really holds up and lasts a whole lot better. It makes a big impact on the quality of the produce."

Tony Rajaram Produce Team Leader Whole Foods Market – Edgewater, NJ

"I think AiroCide PPT should be installed in the large prepared foods coolers at our store. In fact, my Produce Coordinator told me that all our stores need this technology."

Mark Boulanger Produce Team Leader Hadley, MA

The (AiroCide PPT) technology keeps many of our products (hot peppers, mushrooms, and Brussels sprouts in particular) fresher longer and decreases shrink. We also have no more noticeable mold on cooler surfaces anymore. I would recommend AiroCide PPT to any store."

Brian Rogue Assistant Produce Team Leader Whole Foods Market – Providence, RI

"I think that the AiroCide units are responsible for wiping out the mold we sometimes saw in our coolers."

Chris McVey Assistant Produce Team Leader Whole Foods Market – New York, NY

"The first thing I noticed when I transferred to this store was the quality of the air in the produce coolers. There was no musty smell or odor."

Brian Huck Produce Team Leader Whole Foods Market – Ridgewood, NJ

"I have a decrease in loss since using AiroCide PPT and it is going down. Also, the smell in my cooler is not as strong as it used to be. I would recommend it to all stores and distribution centers."

Chris Ford Distribution Coordinator Whole Foods Market - Duluth, GA

"The product lasts a lot longer and the coolers with the AiroCide units and are easier to keep clean."

Eunick Bename Produce Team Leader Whole Foods Market – Madison, NJ

"I am more confident that with AiroCide I won't have any additional problems with shrink and cleaning maintenance due to the extra holiday ordering schedule. I also noticed a fresher smell in the coolers in this store."

Jennifer Fichetola Assistant Produce Team Leader Whole Foods Market – Louisville, KY

"I've noticed there is no smell in the produce coolers."

Jeff Kirby Produce Team Leader Whole Foods Market – Wylie, TX
